

Issue 91: INSIDER'S EDGE: Enrolling in Coverage—Quick Tips

Welcome back, Insiders! Completing the Maryland Health Connection application to get an eligibility determination and actually enrolling in coverage is a two-step process. Consumers will receive an eligibility determination *and then* they must select a program to enroll in.

Here are a few tips to remember when working with a consumer who is ready to enroll in coverage:

- If a consumer is found eligible for Medicaid, MCHP, MCHP Premium, or a QHP with assistance, they will also have the option to enroll in a QHP *without* assistance. **Wait what?** Remember during Open Enrollment, consumers always have the option to enroll in a QHP and pay full price, even if they have been found eligible for Medicaid or a QHP with assistance.
- To actually enroll in coverage online, the consumer must select the checkbox next to the program in which they would like to enroll from the eligibility determination list, click “Proceed to Enrollment”, and follow the system prompts. Simply reaching the eligibility determination screen will not enroll the individual in coverage.
- If the consumer did not select a program when they applied online or if they applied via paper application, they will receive information on how to select coverage as part of their *Individual Eligibility Determination (1301)* notice. The *Individual Eligibility Determination (1301)* notice will include a form that can be submitted to enroll in Medicaid or select QHP coverage.

NOTICE LANGUAGE—Online Portal: *Consumer eligible for QHP with assistance or QHP without assistance*
